

EMMANUEL NKEREUWEM

FULLSTACK DEVELOPER | AI ENGINEER

nkememmanuel5505@gmail.com | <https://github.com/emmystark> | <https://emmanuelnkereuwem.vercel.app>

PROFESSIONAL SUMMARY

Dynamic full-stack developer with five years of experience in crafting scalable web applications using React.js for frontend, Node.js and Express.js for backend APIs, PostgreSQL for database management, and AWS for deployment and server management. Proven expertise in end-to-end application integration, RESTful API development, and version control with Git. Skilled in optimizing performance, ensuring data integrity, and delivering high-impact solutions through remote collaboration.

TECHNICAL SKILLS

- Frontend: HTML, CSS, JavaScript, TypeScript, React.js
- Backend: Node.js, Express.js
- Cloud & DevOps: AWS (EC2, S3, RDS), Git / Version Control, REST APIs
- Databases: PostgreSQL, SQL,
- Other: CI/CD pipelines

PROFESSIONAL EXPERIENCE

Full Stack Developer | Sentinel - Full Stack Web App Jan 2026 - Feb 2026

- Delivered a high-performance full-stack web application in under two months, showcasing efficiency by rapidly prototyping and iterating on features to meet aggressive deadlines.
- Led frontend development with React.js, creating responsive and intuitive user interfaces for enhanced user experience.
- Built scalable backend APIs using Node.js and Express.js, integrating real-time data processing and secure endpoints.

Full Stack Developer | Hypertask - Web3 Full Stack Web App Nov 2025 - Dec 2025

- Engineered a full-stack Web3 application with token deployment in just one month, highlighting effort and competence by compressing development cycles while maintaining high-quality code and security standards.
- Developed frontend components using React.js and integrated Tailwind CSS for streamlined, responsive styling.

Full Stack Developer | Private Chatbot for Companies Aug 2025 - Oct 2025

- Built frontend components with React.js for a secure fintech chatbot, enabling intuitive user interactions and document-based queries.
- Developed backend APIs using Node.js and Express.js, focusing on privacy and integration of NLU for processing sensitive financial data.
- Managed PostgreSQL databases for inventory, transactions, and file processing, implementing secure REST APIs to prevent fraud.

EDUCATION

Software Engineering Aug 2019 - Oct 2020

- ALX Cohort 9
